DeCarli Farm summer camp is an opportunity to enhance horsemanship skills both in the saddle and on the ground. A typical day of camp will include at least one hour of riding, an un-mounted lesson, educational games and crafts, all tailored to the particular needs of the children in each session. Campers may choose to either bring their own horse or ride one of DeCarli Farm's school horses. Campers should bring riding attire along with a change of cooler clothes as well as lunch and plenty to drink. Horse camp is a unique experience that allows each child to extend all aspects of their horse knowledge while gaining friendships and confidence that will last a life time!
